M39426	Each	# 2820	28B	29"

How to order window balances correctly

1. Verify that the ends on your window balance match the ends of *our* window balances. (If they do go to step 2) (If they do not go to step 5)
2. Look for a stamped number or letter that matches the above chart. (If they do go to step 4) (If no stamp or letter is visible go to step 3)
3. Measure the length of the metal balance, not tips. Then match the length to above chart. (If your length is in the above chart go to step 4) (If not go to step 5)
4. Order using our Mill Supply item number.
5. This is not a standard window balance we stock, please call our inside sales department and we will assist you further.

Window Balance Clip :

- Take out clip for window balance
- 1-1/4" x 1/4"
- Sold by the each

KWIKSET SMART KEY

The only lock you can re-key yourself in 30 seconds.

Kwikset's SmartKey is a technological innovation that allows you to control who has access to your home. SmartKey provides the flexibility of re-keying your own lock in 3 simple steps, without removing it from your door. SmartKey provides superior security with an ANSI Grade 1 deadbolt and offers BumpGuard™ for protection against lock bumping.

- The answer to lost, stolen or unreturned keys
- One-key convenience for all Kwikset locks
- Certified highest level of residential security

Abbey Smart Key Entry Lockset :

- Exquisitely versatile, the Abbey is right at home in almost any style decor. Its rounded handle is proportioned to fit the palm of the hand, beautifully
- Provides superior security with the flexibility of re-keying your own lock quickly and easily without removing it from the door
- Bumpguard for added protection from lock bumping
- Satin Chrome finish
- Keyed different

Item # **M31453**
U/M - Each

Hancock Smart Key Entry Lockset :

- Elegance meets durability in traditional Hancock. Its look, as well as its workmanship is designed to last
- Provides superior security with the flexibility of re-keying your own lock quickly and easily without removing it from the door
- Bumpguard for added protection from lock bumping
- Antique Brass finish
- Keyed different

Item # **M31449**
U/M - Each

Smart Key Deadbolts :

- Provides you the flexibility to re-key your own locks quickly and easily without removing them from the door
- Re-key Smartkey locks as frequently as you wish while maintaining a high level of security
- Patented side locking bar technology replaces the traditional pin-and-tumbler design
- This new design includes Bumpguard for improved security against lock bumping, an attack technique that can defeat conventional pin-and-tumbler locks
- Excellent choice for tenant turnover, lost, stolen or unreturned keys, increased security, remodeling, upgrading or updating
- Keyed different

A SMART SOLUTION FOR THE MULTIFAMILY HOUSING MARKET

INCREASE EFFICIENCY

SAVE TIME & MONEY

ADD SECURITY WITH KEY CONTROL

1 KEY IT YOURSELF

Lock is rekeyable in less than 30 seconds by using the included learn tool without removing the lock from the door.

2 BUMP GUARD™

Patented side locking bar technology replaces a traditional pin & tumbler design to protect against lock bumping.*

3 DRILL RESISTANCE

Cylinder uses two steel balls inserted into the front of the key face to resist attack from drilling.

4 NEW TECHNOLOGY

Locking bar, racks and pins are made out of stainless steel for increased strength & durability.

*Lock bumping - an attack technique using specially cut keys that can defeat conventional pin & tumbler locks.

SmartKey now available in 2 levels of security.

780

- ANSI Grade 2 High Residential Security
- ADA Compliant
- Easy to Install
- Variety of Finishes

NEW

660

- ANSI Grade 3 Residential Security
- Value Price
- Easy to Install
- Variety of Finishes

EASILY RE-KEY IN THREE EASY STEPS

You **must** have the functioning key & the learn tool for the system to work.

1

Insert functioning key and turn 1/4 turn clockwise.

2

Insert and remove the SmartKey learn tool. Remove functioning key.

3

Insert new key and turn 1/2 turn counter-clockwise. Your lock is now re-keyed!

LOCK SERVICES - KEYING OPTIONS

We can professionally key locks to your specifications - Please contact your sales representative for more information.

Keyed Different

Where 2 or more locks have different keys. Keys will not open any other lockset.

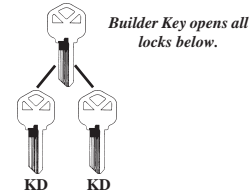

Keyed Alike

Where 2 or more locks are keyed the same. Keys will open either lockset.

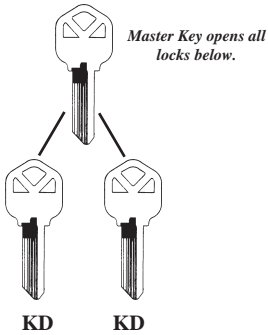

Builder (Construction) Keyed Different

Where 2 or more locks have different keys. Keys will not open any other lockset. Builder key will open all locks in group until tenant key is used. **Once tenant key is used builder key becomes obsolete and will not operate either lockset.**

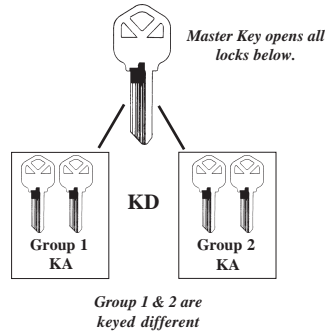

Master Keyed Keyed Different

Where 2 or more locks have different keys. Keys will not open any other lockset but Master key will open either lockset.

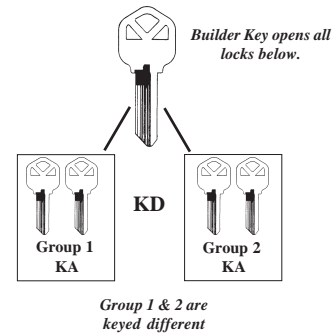

Master Keyed Keyed Alike

Where 2 or more groups have different keys. Keys will not open any other lockset but in there group. Master key will open all locks in either group.

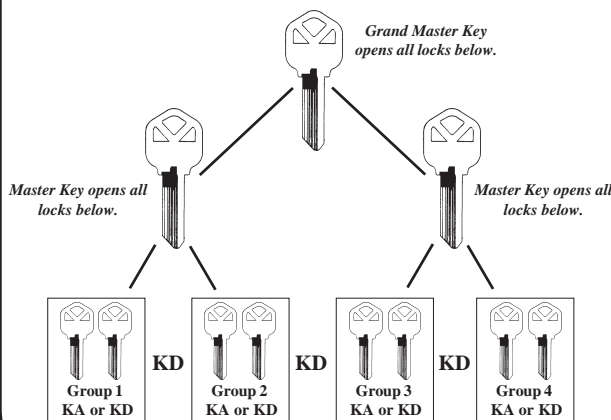

Builder (Construction) Keyed Alike

Where 2 or more groups have different keys. Keys will not open any other lockset. Builder key will open all locks in group until tenant key is used. **Once tenant key is used builder key becomes obsolete and will not operate either lockset.**

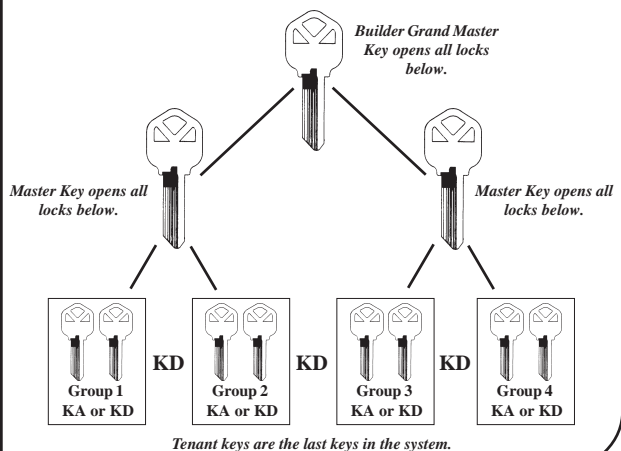

Grand Master Keyed

Where any lock in the system can be opened by one grand master key. In a grand master key system, master keys can open groups within them in the system but will not open locks under a different master key. Groups can be keyed alike or different but will not operate outside of their group.

Builder (Construction) Master or or Grand Master Keyed

Where any lock in the system can be opened by one grand master key. In a builder grand master key system, master keys can open groups within them in the system but will not open locks under a different master key. Groups can be keyed alike or different but will not operate outside of their group. **Once the tenant key is used, the construction key will no longer operate the lock. The grand master and the master key will always operate the locksets in their specific groups.**

Security and safety
solutions for
multi-family
properties.

The Schlage logo is a blue rectangular box with the word "SCHLAGE" in white, bold, uppercase letters. The box has a slight 3D effect with a white shadow on the right side.

SCHLAGE

For more than 85 years Schlage has been providing innovative security solutions for schools, hospitals, hotels, condominiums and other commercial buildings. With innovative wireless and electronic security products, as well as a wide range of mechanical locks, styles and finishes, Schlage has what you need no matter how demanding your application.

¹Standards Governing the Design of Wall-Mounted Centralized Mail Receptacles. Federal Register/ Vol. 69, No. 171/September 3, 2004/Rules and Regulations POSTAL SERVICE, 39 CFR Part 111.

²ADA Standards for Accessible Design, Department of Justice Code of Federal Regulations, 28 CFR Part 36, Appendix A, Section 4.2 Space Allowance and Reach Ranges. Americans with Disabilities Act Accessibility Guidelines (ADAAG).

³Accessible and Usable Buildings and Facilities, International Code Council/American National Standard Institute (ICC/ANSI A117.1-2003), Chapter 3 Building Blocks, Section 308 Reach Ranges. NOTE: The 2006 International Building Code (IBC 2006) also refers to this ANSI Standard for accessibility building guidelines as does the Federal Fair Housing Act Accessibility Guidelines.

Notes:

All STD-4C compliant mailboxes must meet the U.S. Postal Service's design and installation regulation in order to receive the "USPS Approved" designation. Accessibility regulations may vary locally and regionally. Therefore, always consult local building code authorities for applicable accessibility codes related to your mailbox project.

A "Yes" rating in the chart above was assigned only if ALL mailboxes in the entire Florence versatile™ suite met the referenced regulation. A 4C suite that has been assigned a "No" rating will have some rows of mailboxes that DO meet the accessibility regulation, but others which do not. This "Accessibility Guide" is designed to help you determine which Florence 4C mailbox suite meets your individual project specifications. Consult local codes for accessibility requirements.

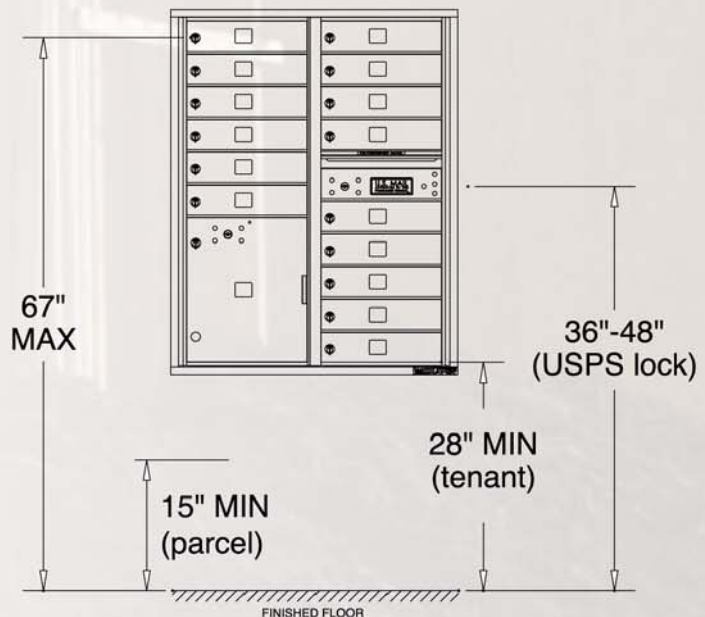

Sequential numbering (rather than assigning mailbox IDs that match apartment or house numbers) of mailbox compartments may allow greater flexibility in providing mailbox compartments that meet accessibility regulations applicable to your project. *Sequential numbering of mailbox compartments also provides greater security and privacy for your residents.*

Mailbox modules from Suites B, D, and I can be used with projects where ALL resident mailboxes must comply with the Fair Housing Act/ANSI 48" height restrictions as well as comply with the USPS STD-4C installation specification.

Meeting Proper Installation Instructions

Installation requirements specified in the U.S. Postal Service STD-4C regulation are outlined below. Florence Manufacturing STD-4C product installation instructions adhere to all USPS regulations. For reference, versatile™ 4C suite A is shown below. Other suite installation details are available by contacting your local Authorized Florence Dealer or by going online to florencemailboxes.com.

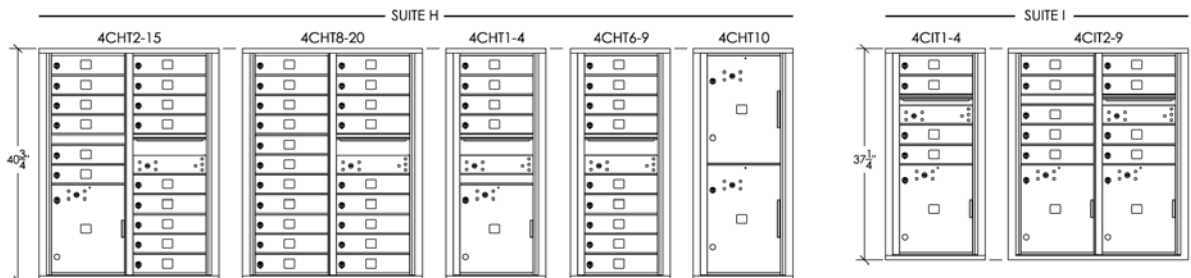

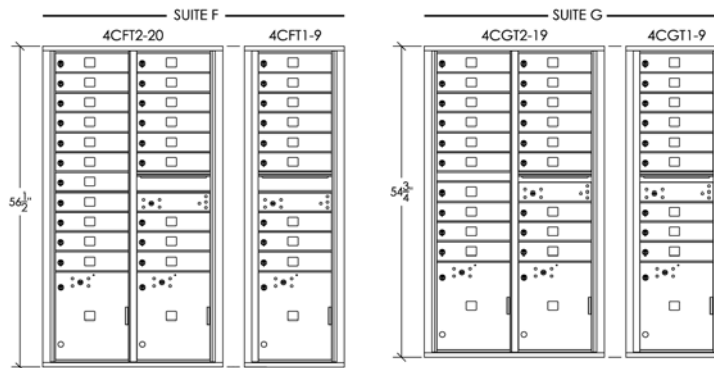

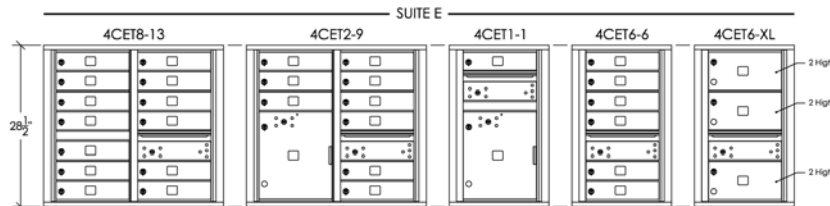

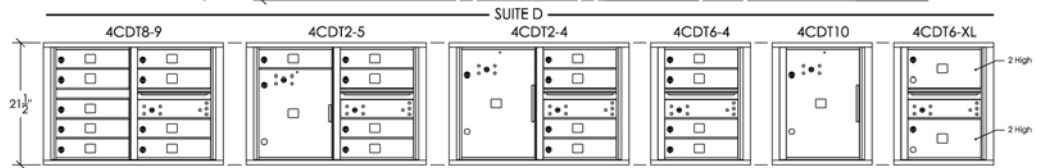

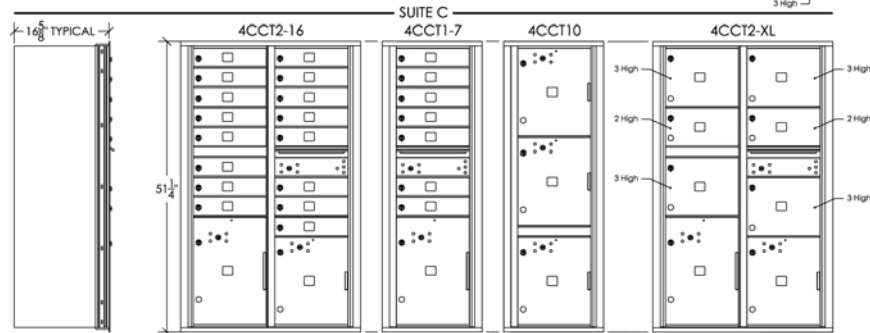

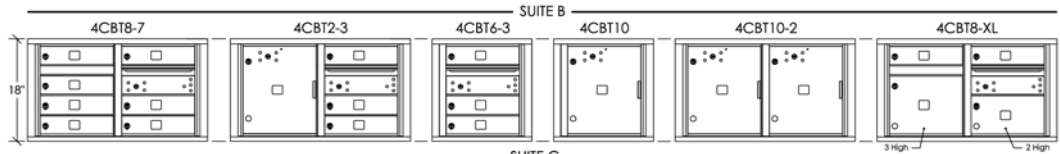

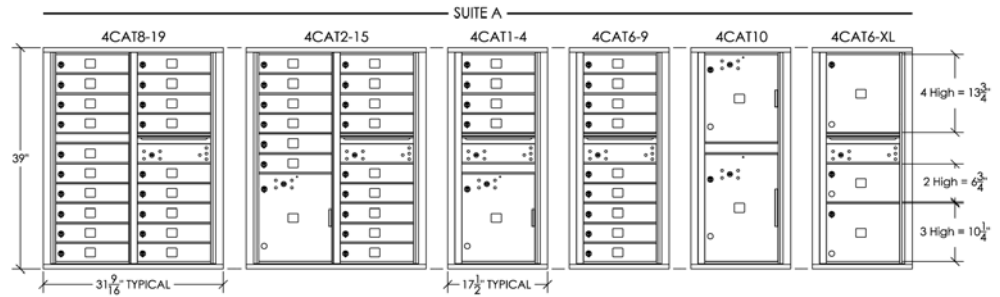

1. At least one customer compartment shall be positioned less than 48 inches from the finished floor.
2. No parcel locker compartment (interior bottom shelf) shall be positioned less than 15 inches from the finished floor.
3. No patron (tenant) lock shall be located more than 67 inches above the finished floor.
4. No customer compartment (interior bottom shelf) shall be positioned less than 28 inches from the finished floor.
5. The USPS Arrow lock shall be located between 36 and 48 inches above the finished floor.

No calculating or configuring needed ... just three easy steps:

- 1) Mix 'n match our extensive USPS approved module options to suit your project's size and style.
- 2) Choose your compartment identification – use standard number placards or let us engrave the doors to suit your needs.
- 3) Select your finish color from eight architectural powder coat options. You're done!

SUITE I 37-1/4" UNIT HEIGHT	ROUGH OPENING HEIGHT: 36-5/16"; ROUGH OPENING DEPTH: 17" Minimum (NEW)					
	MODEL	RO WIDTH	ACTUAL WIDTH	WEIGHT (LBS)*	# TENANTS	# PARCELS
	4CIT1-4	16-1/4"	17-1/2"	55 / 69	4	1
4CIT2-9	30-5/16"	31-9/16"	96 / 127	9	2	

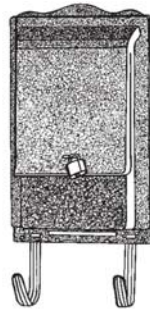

RO height and width on all models tolerant to +1/4"-0". RO height and width on all multi-unit installations tolerant to +1/8"-0".

Use this formula to calculate RO width for Multi-Unit 4C Installation = (the sum of all actual unit widths) – 1-1/8"

MAILBOXES

Vertical Mailbox :

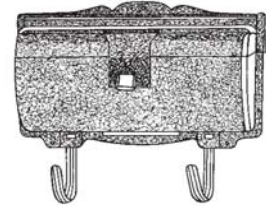

- All weather, heavy gauge **PLASTIC** body
- Easy access & empty door that is lockable
- Top leading slot with weatherproof flap
- Black, 6"W x 12-1/2"H

Item # M39107
U/M - Each

Horizontal Mailbox :

- All weather, heavy gauge **PLASTIC** body
- Easy access & empty door that is lockable
- Top leading slot with weatherproof flap
- Black, 12"W x 7-1/2"H

Item # M39111
U/M - Each

City Mailbox :

- Security hasp and wire magazine rack included
- Metal body
- Size; 5-1/2"W x 10-1/2"H x 2"D
- Satin Black finish

Item # M39113
U/M - Each

Horizontal Mailbox :

- All weather, heavy gauge **PLASTIC** body
- Medium capacity
- Black
- Size; 16-1/2"W x 6"H x 8"D

Item # M39114
U/M - Each

Vertical Mailbox :

- Heavy steel construction designed to attach to outside wall of residence
- Baked enamel corrosion resistant finish
- Includes magazine rack
- Fully assembled with two mounting screws
- Size; 8-1/2"W x 10"H x 3"D
- Black finish

Item # M39115
U/M - Each

Rural Mailbox :

- Fully assembled, heavy-duty mailbox
- Galvanized steel, ribbed construction for extra structural strength
- 26 gauge steel
- Size; 6-1/2"W x 7-1/2"H x 18-1/2"L
- U.S. #1
- Black finish

Item # M39112
U/M - Each

MAILBOX LOCKS

Auth-Florence Mailbox Lock # C8715:

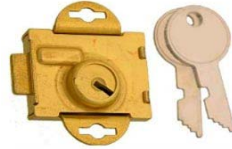

- Offset cam
- Replacement keyblank # M34101

Item # M34401
U/M - Each

Mailbox Lock Flat # 1600 :

- Replaces Auth, Eagle, United, & Lori #1600
- Includes 2 keys
- Brass finish

Item # M34403
U/M - Each

Mailbox Lock For Bommer # 25389:

- Brass finish
- Includes 2 keys

Item # M34407
U/M - Each

Miami-Carey Mailbox Lock # C8719 :

- Offset cam
- Replacement keyblank # M34101

Item # M34416
U/M - Each

Mailbox Lock For American Device :

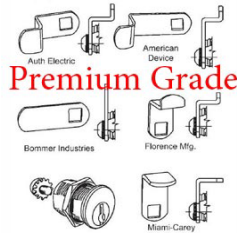

- Replaces American Device #C8714
- Replacement keyblank # M34101

Item # M34419
U/M - Each

Fits Most Mailbox Lock 5 Cam # C8730:

- Disc tumbler mailbox lock w/5 cams
- Replaces American Device, Bommer, Auth-Florence and Miami Carey
- M34427 replacement keyblank # M34142
- M34428 replacement keyblank # M34101

Item #	U/M	Description
M34427	Each	Economy Grade
M34428	Each	Premium Grade

Bommer Mailbox Lock # C8710:

- Pin tumbler lock with removable cam
- NA12 keyway
- Replacement keyblank # M34101

Item # M34439
U/M - Each
