PERFORMANCE YOU CAN COUNT ON

Introducing the RDX Series™ On-Site Two-Way Business Radios— Ideal for Property Management.

Discover what many property owners and managers already know—Motorola on-site two-way business radios offer you a powerful tool for enhancing employee productivity and overall tenant satisfaction. Now, through the enhanced technology in the RDX Series, Motorola brings you an edge in performance you can leverage in both individual buildings and small building complexes.

With the RDX Series, it's easier to keep service levels high through better coordination of employees and contactor teams—just what you need to address the daily challenges of intense competition, safety and security concerns, improving employee efficiency and providing excellent customer service for tenants.

Affordable and easy to use, the RDX Series radios provide the communication tool to help enhance productivity, responsiveness and customer service. Discover what the RDX Series can bring to your property management team.

Property Management Workplace Challenges

Motorola RDX Series Radios Provide Solutions

Intense competition and fluctuating market demand

RDX Series radios are affordable and easy to use, with no per-call charges and no monthly fees.

Safety and security concerns

Security personnel can respond to potential emergency situations or vandalism in less time.

Improving employee efficiency

RDX Series radios enhance communications making workers more productive and accountable.

Providing excellent customer service

Building managers, maintenance technicians, groundskeepers and security personnel can respond fast to tenant needs or emergencies, enhancing the service provided to tenants.

Better management of an on site mobile workforce

Property managers can instantly communicate with agents and supervisors for service, enabling greater staff mobility.

Exceptional Audio Quality. Excellent Durability.

Designed To Meet Property Managers' Needs

RDU2020

RDU4160d

Available Special
Order Only

Exceptional Audio Quality

The RDX Series™ audio is 30% louder than previous Motorola XTN and AX models. 2000 mW audio output, speaker magnetic field reduction, wind-noise reduction and improved RF specifications all help deliver this superior audio quality.

Rugged and Water Resistant

Durable metal diecast chassis helps radios hold up under demanding conditions. The RDX Series meets Military 810 C, D, E, F and IP54/55 specifications for shock, rain, humidity, salt fog, vibration, sand, dust, temperature shock, and high and low temperatures.

Customer Programming Software (CPS)*

Allows users to perform various programming functions. Plus, the CPS software provides access to new features such as Reverse Burst to eliminate unwanted noise, Radio Reporting to manage cloning and radio profiles, Manager Lock, Power Select, PL/DPL Defeat and two additional Time-Out Timers.

Power and Coverage**

2 Watt RDX Series radios provide coverage of up to 250,000 sq. ft., 20 floors—4/5 Watt models cover up to 350,000 sq. ft., 30 floors.

Exceptional Industrial Design

Weighing just 8.6 ounces, the RDX Series is comfortable to wear all day. Plus, the user interface makes the radio simple and easy to use with little or no training.

Flexible and Durable Battery Life Solutions†

The custom RDX Series Li-Ion battery packs are designed and manufactured to ensure durability of the radio. 2 Watt radios feature the standard Li-Ion battery (up to 12 hrs of life per charge). 4/5 Watt radios feature the ultra high capacity battery (up to 18.5 hrs). An alkaline battery kit is available as an optional accessory (up to 26 hrs).

Business Exclusive Frequencies

Operates on 89 UHF (expanded vs XTN and AX models) or 27 VHF business-exclusive frequencies (varies by model); features 122 codes to help ensure a clear signal.

Tri-Color LED Interface

The convenient tri-color LED interface identifies different radio features and radio status.

Easy Cloning

Quickly copy settings from radio to radio with either the Radio-to-Radio Cloning Cable or the Multi-Unit Charger accessories. (Both sold separately.)

Convenient Charging

An easy-to-use drop-in charger keeps radios charged, ready—and centrally located.

Advanced Voice Activation (VOX)

Convenient hands-free operation when used with optional accessories.

Additional Features

Select models offer even more capability.

Repeater Capability

Select RDX Series models are compatible with duplex repeaters to greatly extend coverage area vs. radio-to-radio mode. (RDU4160d model.)

Channels

At the touch of a button, workers or supervisors can change channels to talk with different work groups. Models available with 2, 8, 10 or 16 channels.

Channel Aliasing††

Simple programming enables each channel to have a user-defined name. (Available on RDU2080d, RDV2080d and RDU4160d models.)

Front Panel Programmability

Five programmable buttons enable quick access to features such as scan list, power select and manager lock. (RDU2080d, RDV2080d and RDU4160d models.)

*CPS is available as free internet download. Windows®XP, Windows 2000 compatible, separate USB cable required.

**Coverage will vary based on terrain, conditions and radio model.

†Battery save feature must be activated for optimal battery life.

††Channel aliasing feature available on display models only.

STAYS BRIGHTER LONGER THAN EVER. ASSUMING THAT'S IMPORTANT TO YOU.

Introducing the Maglite® LED flashlight.

As precision an instrument as we've ever designed, combining legendary Maglite durability with state-of-the-art LED technology.

You'll find a powerful projecting beam that focuses effortlessly by simply rotating the head.

You'll find Balanced Optics™, combining a highly refined reflector with a quality LED, for a brilliant, adjustable beam.

You'll find Intelligent Energy Source Management that balances intense brightness with efficient power usage to make your batteries last even longer.

It's an LED flashlight so advanced, in fact, so unique, we carefully engrave each one with its own individual serial number.

Leading us to make this rather critical suggestion.

Next time you choose a flashlight, make that selection wisely.

Needless to say, your very life may depend on it somewhere down the road. Or, possibly, rope.
