

SECTION 1 : IDENTIFICATION

Product Name:	KILZ® Original Aerosol
Product Code:	1024
SDS Manufacturer Number:	1024
Manufacturer Name:	Masterchem Industries LLC
Address:	3135 Old Highway M Imperial, MO 63052-2834
General Phone Number:	(636) 942-2510
General Fax Number:	(636) 942-3663
Customer Service Phone Number:	(800) 325-3552
CHEMTREC:	For emergencies in the US, call CHEMTREC: 800-424-9300
Canutec:	In Canada, call CANUTEC: (613) 996-6666 (call collect)
SDS Creation Date:	June 26, 2006
SDS Revision Date:	April 30, 2015
(M)SDS Format:	

SECTION 2 : HAZARD(S) IDENTIFICATION

Signal Word:Danger.GHS Class:Rammable Aenosol Aspiration Mezard, Category 1. Specific Target Organ Toxicity, Single Exposure, Category 3. Acate Inhalation Toxicity, Category 4Hazard Statements:Extremely (finamable aenosol. May be fatal if swillowed and enters ainways. Causes sortious eye infration. Harnful if inhaled. May be fatal if swillowed and enters ainways. Causes sortious eye infration. Harnful if inhaled. May cause respiratory infration, drowsiness or dizziness.Precautionary Statements:Do NOT use this product unless you can achieve cross-ventilation by opening windows and doors during application and drying or use the product unloss. Do not spray on an open flame or other ignition source. Heresurice or burn, even after use. Wear protective cotting, gloses, eye, and rult all wypois are gons. Pressurized container: Do not pierce or burn, even after use. Wear protective cotting, gloses, eye, and face protection. Take off contaminated dotting and yeah it before reuse. Do not breather vapors or spray mit. Do not breather vapors or spray mit. Take off contaminated dotting and wash it before reuse. Take off contaminated dotting and yeah it before reuse. Take off contaminated dotting and yeah it before reuse. Take off contaminated dotting and yeah it before reuse. Take off contaminated dotting and get medical attention free yen infraued protect. To skin or hair: Wash with pienty of soap and water. Wear protection off yen infraued protects to obtain frait in aveas. It in system chale. Harmful if inhaled. Inhalation of vapors may cause drowsiness and diziness and using its pressuting and get medical attention inmediately.Emergency Overview:Eves. Skin. Inhalation. Ingestion. Press. Skin. Inhalation. Ingestion. Press. Skin. Inhalation. Ingestion. Press. Skin. Inhalat	GHS Pictograms:	
Aspiration Hazard, Category 1. Specific Target Organ Toxicity, Single Exposure, Category 3. Acter Inhalation Toxicity, Category 4. Hazard Statements: Extremely flammable aerosol. May be call of svallowed and enters always. Causes serious eye initiation. Hard II inhaled. May be use respiratory initiation, drowiness or dizziness. Precoutionary Statements: Do Not use this produce and chieve cross-ventilation by opening windows and doors during application and drying or use the product outdoors. Do not use this product unless you can achieve cross-ventilation by opening windows and doors during application and drying or use the product outdoors. Do not use this product unless you can achieve cross-ventilation by opening windows and doors during application and prive of the product. Do not eard, drink or smoke when using this product. Wash hands throroughly after handling. Take off contaminated dothing and wash it before reuse. Do not eard, drink or smoke when using this product. Wash with preverse wash with plenty of saop and water. Wear protective gloves and eye protection. Do not eard, drink or smoke when using the product. Wash in the same all you experime head heads, drowiness of dizzines to obtain fresh are and of the preventive equipation and obtain orbitation prevists. The yees: Rinse cautously with water for several minutes and remove contacts if present and easy to	Signal Word:	Danger.
May be fabil if swallowed and enters ainways. Causes serious ever limitation. Harmful if inhaled. May cause respinatory irritation, drowsiness or dizziness.Precautionary Statements:DO NOT use this product unless you can achieve cross-resultation by opening windows and doors during application and drying or use the product outdoors. Do not spray on an open flame or other ignition source. Extinguish all flames and pilot lights and turn off stoves, heaters, electric motors, high intensity lights and other sources of ignition during use and until all vapors are gone. Pressuitzed container. Do not piero or burn, even after use. Wear protective clothing, gloves, eye, and face protection. Do not reather vapors or spray mit: Near protective clothing, gloves, eye, and face protection. Do not reather vapors or spray mit: Near protective clothing, gloves, eye, and face protection. Do not reather vapors or spray mit: Near protective clothing, gloves, eye, and face protection. Do not expose to temperatures exceeding 50°C/122°F. Store locked up in a col), well-rentlisted place, protected from sunlight. Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, referral, and provind regulation of water. Waer protective gloves and eye protection. If inhaled: Lave the area if you experience headaches, drowsiness or diziness to obtain fresh air and keep at rest in a position confortable for breathing. If difficulty continues, get medical attention immediately.Emergency Overview:Eyes. Skin. Inhalation. Ingestion.Potential Health Effects:Causes severe eye iritation and possible injury. Skin: Causes severe eye iritation and possible injury.Skin:Causes skin iritation. resulting in lung dange. Hamful if swallowed. Aspiration of vapors may cause drowsiness and dizziness. P	GHS Class:	Aspiration Hazard, Category 1. Eye Irritant, Category 2. Specific Target Organ Toxicity, Single Exposure, Category 3.
application and drying or use the product outdoors. Bo not spray on an open flame or other ignition source. Extinguish all flames and pilot lights and turn off stoves, heaters, electric motors, high intensity lights and other sources of ignition during use and until all vapors are gone. Pressurized container: Do not pierce or burn, even after use. Wear protective dothing, gloves, eve, and face protection. Do not breather wapors or spray mist. 	Hazard Statements:	May be fatal if swallowed and enters airways. Causes serious eye irritation. Harmful if inhaled.
resulting in lung damage. Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Irritant.Route of Exposure:Eyes. Skin. Inhalation. Ingestion.Potential Health Effects:Causes severe eye irritation and possible injury.Skin:Causes skin irritation.Inhalation:Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive inhalation may cause respiratory tract irritation.Ingestion:Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal.Chronic Health Effects:Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Precautionary Statements:	application and drying or use the product outdoors. Do not spray on an open flame or other ignition source. Extinguish all flames and pilot lights and turn off stoves, heaters, electric motors, high intensity lights and other sources of ignition during use and until all vapors are gone. Pressurized container: Do not pierce or burn, even after use. Wear protective clothing, gloves, eye, and face protection. Do not breathe vapors or spray mist. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Take off contaminated clothing and wash it before reuse. Do not expose to temperatures exceeding 50°C/122°F. Store locked up in a cool, well-ventilated place, protected from sunlight. Dispose of unused contents, container, and other contaminated wastes in accordance with local, state, federal, and provincial regulations. If in eyes: Rinse cautiously with water for several minutes and remove contacts if present and easy to do. Continue rinsing and get medical attention if eye irritation persists. If on skin or hair: Wash with plenty of soap and water. Wear protective gloves and eye protection. If inhaled: Leave the area if you experience headaches, drowsiness or dizziness to obtain fresh air and keep at rest in a position comfortable for breathing. If difficulty continues, get medical attention immediately.
Potential Health Effects: Eye: Causes severe eye irritation and possible injury. Skin: Causes skin irritation. Inhalation: Hamful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive inhalation may cause respiratory tract irritation. Ingestion: Hamful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal. Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Emergency Overview:	resulting in lung damage. Harmful if inhaled. Inhalation of vapors may cause drowsiness and
Eye:Causes severe eye irritation and possible injury.Skin:Causes skin irritation.Inhalation:Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive inhalation may cause respiratory tract irritation.Ingestion:Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal.Chronic Health Effects:Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Route of Exposure:	Eyes. Skin. Inhalation. Ingestion.
Skin: Causes skin irritation. Inhalation: Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive inhalation may cause respiratory tract irritation. Ingestion: Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal. Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Potential Health Effects:	
Inhalation:Harmful if inhaled. Inhalation of vapors may cause drowsiness and dizziness. Prolonged or excessive inhalation may cause respiratory tract irritation.Ingestion:Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal.Chronic Health Effects:Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Eye:	Causes severe eye irritation and possible injury.
Ingestion: Harmful if swallowed. Ingestion can cause nausea, vomiting, diarrhea and gastrointestinal irritation. Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal. Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Skin:	Causes skin irritation.
Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be fatal. Chronic Health Effects: Prolonged or repeated contact can result in defatting and drying of the skin, which may result in skin irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Inhalation:	
irritation and dermatitis (rash). Repeated or prolonged inhalation may cause toxic effects.	Ingestion:	Aspiration of petroleum distillates into the lungs can cause severe chemical pneumonitis that can be
Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.	Chronic Health Effects:	irritation and dermatitis (rash).
	Signs/Symptoms:	Overexposure can cause headaches, dizziness, nausea, and vomiting.

Aggravation of Pre-Existing Conditions:

SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent	EC Num.
Titanium dioxide	13463-67-7	5 - 10 by weight	
Aliphatic Hydrocarbon	64742-49-0	5 - 10 by weight	
Nonanes	111-84-2	5 - 10 by weight	
Rutile	1317-80-2	1 - 5 by weight	
Talc, Magnesium silicate hydrate	14807-96-6	1 - 5 by weight	
Limestone	1317-65-3	5 - 10 by weight	
Octanes, all isomers	111-65-9	5 - 10 by weight	
Acetone	67-64-1	10 - 30 by weight	
Propane	74-98-6	10 - 30 by weight	
Isobutane	75-28-5	1 - 5 by weight	
n-butane	106-97-8	5 - 10 by weight	

SECTION 4 : FIRST AID MEASURES

Eye Contact:	Immediately flush eyes with plenty of water for at least 15 to 20 minutes. Ensure adequate flushing of the eyes by separating the eyelids with fingers. Remove contacts if present and easy to do. Continue rinsing. Get medical attention, if irritation or symptoms of overexposure persists.
Skin Contact:	Immediately wash skin with soap and plenty of water. Get medical attention if irritation develops or persists.
Inhalation:	If inhaled, remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.
Ingestion:	If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.
Other First Aid:	Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to reduce the risk of aspiration.

SECTION 5 : FIRE FIGHTING MEASURES

Flammable Properties:	Flammable liquid.
Flash Point:	-156°F (-104°C)
Flash Point Method:	None.
Auto Ignition Temperature:	Not applicable.
Lower Flammable/Explosive Limit:	0.8% by volume
Upper Flammable/Explosive Limit:	12.8% by volume
Fire Fighting Instructions:	Flammable. Cool fire-exposed containers using water spray.
Extinguishing Media:	Use dry chemical, carbon dioxide to extinguish small fires. Use water for large fires.
Protective Equipment:	As in any fire, wear Self-Contained Breathing Apparatus (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear.
Unusual Fire Hazards:	Flammable liquid. Vapors can form an ignitable mixture with air. Vapors can flow along surfaces to a distant ignition source and flash back.
NFPA Ratings:	
NFPA Health:	1
NFPA Flammability:	4
NFPA Reactivity:	0

SECTION 6 : ACCIDENTAL RELEASE MEASURES

Personnel Precautions:	Evacuate area and keep unnecessary and unprotected personnel from entering the spill area. Use proper personal protective equipment as listed in Section 8.
Environmental Precautions:	Avoid runoff into storm sewers, ditches, and waterways.
Methods for containment:	Place leaking cans in a container such as an open pail or plastic bag if safe to do so and let the the

gas and pressure dissipate. Contain spills with an inert absorbent material such as soil or sand. Prevent from spreading by covering, diking or other means. Provide ventilation. Eliminate all ignition sources including those beyond the immediate spill area if safe to do so.

Clean up spills immediately observing precautions in the protective equipment section. Collect spill with a non-sparking tool. Place into a suitable container for disposal. Take precautionary measures against static discharges. After removal, flush spill area with soap and water to remove trace residue.

SECTION 7 : HANDLING and STORAGE

Handling:	DO NOT use this product unless you can achieve cross-ventilation by opening windows and doors during application and drying or use the product outdoors. Avoid breathing vapor and contact with eyes, skin and clothing. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper grounding procedures.
Storage:	Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, and incompatible substances. Keep container tightly closed when not in use.
Work Practices:	To reduce potential for static discharge, bond and ground containers when transferring material.
Special Handling Procedures:	Do not reuse containers without proper cleaning or reconditioning.
Hygiene Practices:	Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION

Engineering Controls:	Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.
Eye/Face Protection:	Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.
Skin Protection Description:	Chemical-resistant gloves and chemical goggles, face-shield and synthetic apron or coveralls should be used to prevent contact with eyes, skin or clothing.
Respiratory Protection:	A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.
Other Protective:	Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.
PPE Pictograms:	

<u>Titanium dioxide</u> :	
Guideline ACGIH:	TLV-TWA: 10 mg/m3
Guideline OSHA:	OSHA-TWA: 15 mg/m3
Talc, Magnesium silicate hydrate :	
Guideline ACGIH:	TLV-TWA: 2 mg/m3 (Respirable)
Guideline OSHA:	OSHA-TWA: 20 mg/m3
Acetone :

SECTION 9 : PHYSICAL and CHEMICAL PROPERTIES

Physical State:	Aerosol.
Color:	White
Odor:	Solvent.
Odor Threshold:	Not applicable.
Boiling Point:	>99°F(>37°C)
Melting Point:	Not applicable.
Density:	7.0 - 8.0
Solubility:	Not applicable.
Vapor Density:	Not applicable.
Vapor Pressure:	Not applicable.

Evaporation Rate:	Not applicable.
pH:	Not applicable.
Viscosity:	Not applicable.
Coefficient of Water/Oil Distribution:	Not applicable.
Flammability:	Water thin
Flash Point:	-156°F (-104°C)
Flash Point Method:	None.
Auto Ignition Temperature:	Not applicable.
VOC Content:	Not applicable.

SECTION 10 : STABILITY and REACTIVITY

Chemical Stability:	Stable under normal temperatures and pressures.
Hazardous Polymerization:	Not reported.
Conditions to Avoid:	Heat, flames, ignition sources, and sparks. Incompatible materials. Freezing or temperatures below $0^{\circ}C$ (32°F).
Incompatible Materials:	Oxidizing agents. Strong acids and alkalis.

SECTION 11 : TOXICOLOGICAL INFORMATION

Titanium dioxide :	
Skin:	Skin - Rabbit; Standard Draize test. : 300 ug/3D; (Intermittent) mild. (RTECS)
Ingestion:	Ingestion - Rat TDLo: 60 gm/kg; Gastrointestinal - Hypermotility, diarrhea Gastrointestinal - Other changes. (RTECS)
Carcinogenicity:	IARC: Group 2B: Possibly carcinogenic to humans.
<u>Talc, Magnesium silicate hydrate</u> :	
Carcinogenicity:	IARC: Group 3: Unclassifiable as to carcinogenicity to humans.
Acetone :	
Eye:	Eye - Rabbit; Standard Draize test. : 10 uL - mild (RTECS)
Skin:	Skin - Guinea pig; LD50: >9400 uL/kg - Details of toxic effects not reported other than lethal dose value. (RTECS)
Inhalation:	Inhalation - Rat LC50: 50100 mg/m3/8H - [Details of toxic effects not reported other than lethal dose value Inhalation - Mouse LC50: 44 gm/m3/4H - Details of toxic effects not reported other than lethal dose value. (RTECS)
Ingestion:	Ingestion - Rat LD50: 5800 mg/kg - Behavioral - Altered sleep time (including change in righting reflex) Behavioral - Tremor Ingestion - Mouse LD50: 3 gm/kg - [Details of toxic effects not reported other than lethal dose value. (RTECS)
Isobutane :	
Inhalation:	Inhalation - Rat LC50: 570,000 ppm/15M - [Behavioral - Tremor Behavioral - Convulsions or effect on seizure threshold Lungs, Thorax, or Respiration - Respiratory depression] (RTECS)
<u>n-butane</u> :	
Inhalation:	Ingestion - Rat LC50: 658000 mg/m3/4H - [Details of toxic effects not reported other than lethal dose value] (RTECS)

SECTION 12 : ECOLOGICAL INFORMATION

Ecotoxicity:	No ecotoxicity data was found for the product.
Environmental Fate:	No environmental information found for this product.

SECTION 13 : DISPOSAL CONSIDERATIONS

Waste Disposal:

Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines.

SECTION 14 : TRANSPORT INFORMATION			
DOT Shipping Name:	Aerosols, flammable.		
DOT UN Number:	1950		

DOT Hazard Class:	2.1
DOT Packing Group:	Not applicable.
DOT Exemption:	Not applicable.
IATA Shipping Name:	Aerosol. Flammable.
IATA UN Number:	1950
IATA Hazard Class:	2.1
IATA Packing Group:	Not applicable.
Canadian Shipping Name:	Aerosol.
Canadian UN Number:	1950
Canadian Hazard Class:	2.1
Canadian Packing Group:	Not applicable.
IMDG UN NUmber :	1950
IMDG Shipping Name :	Aerosol.
IMDG Hazard Class :	2.1
IMDG Packing Group :	Not applicable.
Marine Pollutant:	Not applicable.
ADR UN Number:	1950
ADR Shipping Name :	Aerosol.
ADR Hazard Class:	2
ADR Packing Group :	Not applicable.

SECTION 15 : REGULATORY INFORMATION

<u>Titanium dioxide</u>:

TSCA Inventory Status:	Listed
State Regulations:	Listed in the New Jersey State Right to Know List. Listed in the Pennsylvania State Hazardous Substances List.
